CALL FOR PAPERS

IEEE RFID-TA 2018 The 9th annual IEEE International Conference on RFID Technology and Applications 2018 (IEEE RFID-TA 2018) will be held on Sep 26-28, 2018 in Macau SAR, China. Authors are invited to contribute and present their latest research and developments in all areas of wireless identification and sensing.

IEEE RFID-TA 2018 will provide a forum for the advancement of RFID technology and practice, and will aim to strengthen relations between industry, research institutions and academia. Authors are invited to submit maximum 6-page original, high-impact papers presenting their latest research and practical applications in all areas of RFID.

Topics of Interests include, but not limited to:

- Antenna and design
- Tags and Readers
- Circuits and systems
- Protocols and networks
- Signal propagation and processing
- Energy Harvesting
- Data and Power transfer
- Modulation schemes
- Modeling, simulation, implementation
- RFID sensors
- RFID applications in Health care, Finance, Transportation, security, inventory management, and RFID tracking of information, location, asset, energy, and people
- Near field communications
- Smart and programmable tags
- RFID Manufacturing processes
- Internet of Things

Accepted papers at the conference will be submitted to IEEE Xplore for publication.
